

managing energy costs

With the seemingly continuous increase in energy bills it is a good idea to check you are getting the best deal possible and if not to shop around. Energy companies will often give better deals to sign up new customers but don't offer these to their existing customers unless they are asked to. As the old saying goes, 'if you don't ask, you don't get' – and that's definitely true when it comes to energy.

To help you find the right energy provider that offers the best value for money DAISI Services has compiled this list of energy companies, their phone numbers and websites.
